

Project Proposal: Educational Social App

Group 4: Daniel Munoz, Ian Comey, Owen Sheow,
Callista Napitupulu, Kevin Thomas

Project Goals

- Educational Social Platform to Supplement University Class Boards:
 - Help assist students with:
 - Communication
 - Deadlines
 - Class Discussions
 - Holidays
 - To-Do Lists
- Learn and demonstrate our knowledge of full stack mobile applications by delivering a well made integration of frontend and backend technologies.

Key Tools / Technologies

Frontend – React Native

Backend – Node.js with Express

Database – Firebase

Authentication – OAuth
